Mayor vetoes burning

Leaf fires started at dump

By Bob Slate
Staff writer

Some Granite City residents were going to burn their leaves, regardless of the legality of the action.

As promised, Mayor Ron Selph vetoed a leaf burning ordinance Tuesday night. But even before the City Council meeting had ended, someone had set fire to the leaves in a yard waste drop-off area in the city, forcing firefighters to control a slowly smoldering fire long into the night.

In fact, the fire department was forced to respond to the yard waste drop-off bin near 25th Street and Center Street several times through Wednesday afternoon to extinguish fires.

Firefighter John Miller said that the

department had dumped more than 15,000 gallons of water — more than 30 truckloads — on the smoldering pile of leaves by Wednesday afternoon.

At a special meeting Nov. 14, the City Council adopted an ordinance allowing limited leaf burning in the city. Proponents said the measure could save the city up to \$100,000 annually in leaf disposal and labor costs.

But Mayor Ron Selph vetoed the ordinance Tuesday, citing health and environmental concerns.

"All published studies clearly report that residents of our community are adversely impacted in their health, comfort and well-being when leaves are burned within the neighborhoods," Selph said in his veto statement. "... I am also aware that when a

Car wash plan gets council OK

Developers begin construction

By Bob Slate
Staff writer

Developers wasted little time beginning construction of a new million-dollar car wash in downtown Granite City last week.

A bulldozer began moving dirt on the vacant triangular lot on Niedringhaus Avenue between Grand and Madison avenues on Wednesday — less than 24 hours after the City Council adopted an amendment to the city's zoning ordinance paving the way for the new facility.

"We're hitting it as hard as we can before bad weather sets in," said Bill Tindall of Tindall Construction Co., the contractor on the project. "We're hoping to have a mild pre-winter and complete the project this construction season."

The Rain Tunnel Car Wash will be the final piece of the QuikTrip development that also includes Taco Bell and Jack-in-the-Box restaurants.

On Tuesday night, the City Council voted 9-5 to adopt an amendment to the city's zoning ordinance adding "car wash" to the list of uses

'McDonald's (a block away) and QuikTrip are destinations. We don't expect to add to traffic; the traffic is already there.'

permitted in C-4 zoning districts.

Opponents of the proposal expressed concern about the amount of traffic generated by the car wash and the possibility that water might run into the road and freeze during cold weather, creating a hazard.

Developers Charles M. Knight and Scott Knight told the City Council Tuesday that the 106-foot-long, fully-automated car wash would be equipped to handle more than 100 cars in an hour, but that they do not expect to operate at

Norton plan flawed?

Parente: Revision needed

By Bob Slate
Staff writer

A contract between the city of Alton and a waste systems company planning to build a mixed waste materials recovery facility in Wood River will have to be revised before Madison County will sign off on the project, a county official says.

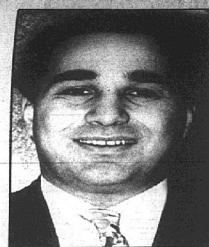

The 40-page contract between Alton and Norton Environmental falls to guarantee that the city will meet a state requirement to recycle at least 25 percent of the waste stream by July 1, 1996, according to Joe Parente, administrator of the county's Building, Zoning and Environmental department.

Alton officials have approved a contract with Norton to have city residential garbage hauled to Norton's proposed \$8 million mixed waste processing facility to be built in the Wood River Envirotech industrial park.

Mixed waste facilities accept unprocessed residential and commercial waste and remove recyclable materials on site.

"If Alton doesn't have an agreement with the county by July 1, residents will be required to separate recyclables," Parente

Half ton of pot seized

Granite City police and agents from the Metropolitan Enforcement Group of Southwestern Illinois confiscated a half ton of marijuana from a horse trailer just outside the city Monday.

Because of the Thanksgiving holiday, it was unclear if anyone had been charged at press time on Friday.

According to a police report, authorities executed a search warrant and seized 1,000 pounds of marijuana from a red horse trailer parked in the 2500 block of Ruth Drive, just north of the Granite City limits and west of St. Thomas Road, at 1:30 p.m. Monday.

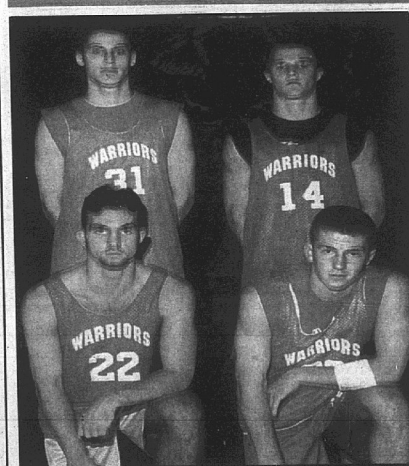

The marijuana has a wholesale value of \$1 million. The trailer was parked on the east side of a home in the 2500 block of Ruth Drive. A brown van was parked behind the trailer to prevent access, the report states.

After police received oral and written permission to search the trailer, a Granite City police K-9 officer indicated that it contained drugs, the report states.

Authorities then obtained a search warrant and confiscated the marijuana.

Bi-State changes in effect Monday

Schedule and/or route adjustments will become effective on Monday on several Madison County bus lines, including the former McKinley Bridge route.

The changes are part of a plan to deal with reductions in federal funds.

Officials of the Madison County Transit District requested the changes because the district is facing a loss of about \$400,000 in federal operating funds because of budget reductions.

At a recent public hearing in Granite City, a number of residents complained about the changes — especially one involving the McKinley Bridge route, which will now end in East St. Louis rather than downtown St. Louis.

The transit district is facing a loss of about \$400,000 in federal operating funds because of budget reductions.

Bi-State officials said route adjustments and additional trips on several lines are being made to improve passenger

convenience.

The changes:
530 Granite City-East St. Louis (Formerly the 530 McKinley Bridge). This route will no longer operate into Missouri. From Venice, it will follow the same route as Madison County's Venice-SIU Shuttle to the 5th and Missouri Metrolink station in East St. Louis where passengers may transfer to Metrolink.

Daily service will be provided hourly. Coordinated with the hourly Venice-SIU Shuttle, service from the Granite City Transfer Center to East St. Louis will be provided every 30 minutes Monday through Saturday.

531 Pontoon Limited: This route will change between 19th and Edison and the McKinley Bridge to operate along Madison and Broadway instead of Rock Road and Illinois 3.

Two early morning trips will be added to the schedule to provide additional direct trips between Granite City and Downtown St. Louis.

Notice of Proposed Permit Issuance and Notice of Public Hearing for Granite City Division of National Steel Company
Granite City Division (GCD) of National Steel Company, 20th and State Streets, Granite City, has requested a construction permit to increase iron and steel production at its plant located in Granite City.
A public hearing is scheduled for December 20, 1995 at 7:00 p.m. at the Granite City Township Hall, 2060 Delmar in Granite City, Illinois. The hearing will be held by the Illinois Environmental Protection Agency's (IEPA) Bureau of Air to receive comments and data and to answer questions from the public prior to making a final decision concerning the permit. Written comments and questions should be submitted to the Agency in writing.
Written comments may be received beginning November 5, 1995 and will be accepted through January 15, 1996. Written comments must be submitted by midnight January 15, 1996. Written comments need not be notarized and should be sent to the Agency Hearing Officer, see address below.
The hearing will be held under the provisions of Subpart A of the Agency's "Procedures for Permit and Construction Plans" 35.1 Admin. Code 186. All questions about the hearing procedure, requests for copies of the hearing rules, or requests for special needs interpreters should be directed to the Agency Hearing Officer, see below for address. Requests for special needs interpreters must be made to the Agency Hearing Officer by December 6, 1995.
The Illinois Environmental Protection Agency (IEPA) has reviewed GCD's permit application and concluded that the proposed production increase complies with applicable State and Federal air pollution control requirements, including the Illinois Environmental Protection Act, the Federal Clean Air Act, Illinois Rules for Air Pollution, 35 Ill. Admin. Code Subpart B and the Federal Prevention of Significant Deterioration (PSD) rules, 40 CFR 52.21. The PSD rules require that the production increase also be consistent with the PM10 attainment demonstration prepared by the Agency for the Granite City area.
The production increase is a major project subject to PSD for emissions of sulfur dioxide (SO2) and carbon monoxide (CO). The net increases in emissions of other pollutants are not significant.
The Agency has found that the proposed emission rates to be achieved for SO2 and CO constitute Best Available Control Technology. The Agency has also determined that this production increase will not cause or contribute to a violation of the National Ambient Air Quality Standards for SO2 and CO. The maximum SO2 air quality impacts modeled by GCD for the project, in micrograms per cubic meter, are 71 annual, 32 24-hour and 345 3-hour averages, which also represent the maximum consumption of PSD increment.
The net increases in emissions of other pollutants are not significant due to contemporaneous emissions decreases at the plant. These decreases result from a variety of changes at the plant, including the shutdown of the blooming mill, improved control of the coke by-products area, addition of a fourth section on the electrostatic precipitator controlling the steamfanning furnaces, and enhanced practices to control fugitive dust from plant roads.
Persons wanting more information may review the permit application and the Bureau of Air's project summary and draft permit at the following locations:

"We would be pleased to service 200 cars a day," Charles Knight said.

He said that the adjacent QuikTrip services more than 1,000 cars each day, but that the car wash would not really serve as a destination for customers. He said his company is working on a cross-marketing project with QuikTrip.

"McDonald's (a block away) and QuikTrip are destinations. We don't expect to add to traffic; the traffic is already there," Charles Knight said.

He added that the car wash design will keep water runoff to a minimum.

Voting in favor of the amendment allowing the car wash were aldermen Casmer Skubish, Craig Tarpoft, Kim Affolter, Eddie Asadorian, Bob Shipley, Brian Fuzesser, Nancy Sanders, Alan Crider and Bob Cook.

Aldermen Foster Frederick, Bob Page, Nick Petrillo, Mac Warfield and Lurton Pulley voted against the amendment.

Tips on selection and care of
Fresh-Cut Trees
from the experts at

FRANK'S®

The fresh aroma from a real live Christmas tree is something that is unequalled. It sort of puts everybody into the holiday mood. They're probably number one on your list of musts if it's a traditional Christmas you desire. Searching out the perfect one, hauling it into the house, enjoying the aroma and decorating it are highlights of the year, no doubt about it.

Here are a few tips on the selection and care of fresh-cut trees.

First of all, know how much room you'll have for the tree. When trees are outside, they tend to look much smaller than they will in your home. A tree that appears to be the perfect size in the yard can end up overpowering everything in a small living room. Another consideration is your tree stand. Make sure the tree you select has a trunk small enough to fit the stand. Trunks that are too large can usually be trimmed to fit, but it's a little more work.

Frank's yards are fully-stocked with fresh trees, so finding the one that's just right shouldn't take too long. But looking's half the fun! And when you finally spot that "one right here" that looks like it should have your name on it, simply ask a Frank's associate for assistance. They'll bale the tree for you, making it much simpler to handle.

Once you get the tree home, the baling can be snipped off with ordinary scissors. Your Frank's sales assistant will have made a fresh cut straight across the bottom of the trunk. You should place the tree in its stand, well filled with water, within twelve hours of the time the cut was made. If it's delayed, get out a hand saw and make another cut straight across the bottom.

The tree should be acclimated to warm indoor temperatures the night before decorating by introducing it to a cooler area of the house, like a porch or basement.

Test the fit of the tree stand before bringing the tree inside. It's certainly no

fun discovering the tree won't fit when it's already in the house, the stand's in place and the kids are watching your every move. Everything's easier when the tree's outside or in the garage, especially if the need to trim the trunk arises.

You may want to lop off some of the lower branches, and it's easily accomplished with any ordinary garden pruning tool or small hand saw.

When you're finally ready to set it up, place it in its stand, making sure it's straight while you tighten everything. Enlisting the help of family members definitely helps here.

Fill the stand with water. During the first 24 hours, the tree will absorb more than at any other time, so keep an eye on it. It's not unusual for a tree to absorb up to a gallon during the first day!

A fresh-cut Christmas tree likes to be cool and out of drafts. To keep freshness at a maximum and dryness at a minimum, don't place the tree near any source of heat, such as a heat register, fireplace or anything else. The tree shouldn't be placed in a draft, either.

Carefully examine all your light sets before placing them on the tree. If any cords are worn, frayed, or otherwise unusual looking, replace them.

Finally, always unplug the tree whenever you go to bed or leave the house, even if it's only for a few minutes.

Hearing aids tested at hospital

St. Elizabeth Medical Center's Audiology Services is testing the use of new hearing aids.

They include programmable and completely in-the-ear styles, which are tiny and fit deep in the ear canal. The department also works with the standard behind-the-ear and in-the-ear types.

"People like these smaller hearing aids because when worn, they aren't easily seen by others," said Karen Schaaf, MS, CCC-A and audiologist. "There used to be one type of circuit that would fit in these tiny hearing aids. However, now companies are getting circuits smaller and smaller, and we can fit more and more types of hearing losses."

Besides their size, another advantage of the CIOs is that they are able to reach higher frequencies," said Cheryl Siegel-Grievens, MS, CCC-A, director of audiology. The programmables can be set to two or four programs, depending on how many different situations you encounter. The customer uses a remote control, which is approximately the size of a credit card.

"The advantage of the programmables is they can adapt to specific problems with hearing loss," said Siegel-Grievens. "They are more versatile because they can usually be set for a number of different environments, such as being at home compared to being in an auditorium."

In an attempt to make children feel more at ease with wearing hearing aids, companies are offering different colors, such as red, blue, yellow, orange and clear, for some behind-the-ear hearing aids.

SEM's Audiology Services has two locations: Ginger Creek Hearing Center, 9 Glen Ed Professional Park in Edwardsville; and St. Elizabeth Medical Center, 1 West, 2100 Madison Ave. For more information, call 798-3616.

Leaves

(Continued from Page 1A)

member of a family is suffering, especially when it is the very young or the elderly, the entire family shares the pain. "I choose to alleviate this suffering whenever I can within the power of my office, or I shall have failed to perform the duties I have been sworn to fulfill."

Several burning proponents agreed with Selph's action. "I felt last week I made a mistake in voting the way I did. Thank you for vetoing this ordinance," said 3rd Ward Alderman Bob Shipley.

Selph encouraged the council, city employees and residents to "cooperate in solving our annual leaf problem in a way that first protects the health of all our citizens and then in the most economical manner possible."

The city's street department will continue its leaf pickup program utilizing a leaf vacuum, street sweepers and other equipment. Street Superintendent Jerry Lakin has indicated his employees will systematically work their way through the city to pick up leaves.

Residents will be asked to place their raked leaves at the curb for city pickup. They may also choose to drop off their leaves at the yard waste dump.

Selph also encouraged the City Council to approve the purchase of a \$100,000 tub grinder for the leaf program. The grinder is capable of mulching leaves, grass clippings and brush, reducing the size of piles and allowing as much as 30 times more material to be placed in a dumpster.

Because the city pays the landfill for leaf and brush disposal by the dumpster load, Selph said, the grinder should pay for itself in savings on tipping fees.

Sometimes time doesn't heal all wounds...

Memorial's Wound Care and Limb Preservation Clinic can help.

Memorial's Wound Care and Limb Preservation Clinic specializes in caring for people with chronic, non-healing wounds of the legs - a significant health problem in the United States.

Among the most common problems treated in the Wound Care and Limb Preservation Clinic are:

- Venous Stasis Ulcers - from weakness in the vein walls on the lower leg.
- Diabetic Ulcers - from poor blood flow and nerve damage in the legs and feet caused by diabetes.
- Leg Ulcer - from narrowing of the arteries causing reduced blood flow in legs.

Services offered
The Wound Care and Limb Preservation Clinic team is specially trained in:

- Wound Evaluation
- Wound Treatment
- Education and Prevention

Vascular and plastic surgeons evaluate your wound and formulate an individualized treatment plan. Other physician specialists are consulted as necessary. Fees are charged according to the extent of services received.

For an appointment
Call Memorial's Marsh Cardiovascular Unit at (618) 257-5036. The Wound Care and Limb Preservation Clinic is held on Tuesdays from 8 a.m. to noon in Memorial's Physical Therapy Department.

Granite City Journal—November 26, 1995—Page 7A

Stack pulls out of judge race

Former Madison County Associate Judge Daniel Stack has backed out of the race to fill a vacant circuit judge position. Stack, who runs a private practice in Edwardsville, said he withdrew from the race Saturday when the Democratic Party announced plans to endorse Associate Judge J. Lawrence Keshner in the March primary. Stack said he will support Keshner in the election. "I had said I would withdraw if I did not get the appointment or endorsement," Stack said. "I can't keep going this way — running a practice part time and running for election." Stack had served as an associate judge for nearly nine years when his colleagues failed to

retain him in May. Keshner, 57, said he was pleased to have Stack's support. "Dan Stack and I have been friends for a long time," he said. "I'm very grateful to have his support. We've been good friends and I intend to keep it that way." The Illinois Supreme Court has assigned former Wood River Attorney Randy Bono to temporarily fill the vacancy. Bono, 44, who still manages a law practice, said he has not decided if he will run for the position. The circuit vacancy was created in November 1994 when former Circuit Judge Paul Riley resigned to accept a federal judgeship. — From the Alton Telegraph

K of C names manager

Bill Bronnbauer has accepted the position of building facilities and marketing manager with the Knights of Columbus in Granite City.

Bronnbauer has lived in Granite City his entire life, attending Granite City High School and Southern Illinois University at Edwardsville. He has been married to Laura for 15 years and has two children, Scott, 13, and Ryan, 10.

The Knights of Columbus is the largest multipurpose meeting facility in the Tri-Cities area, offering seating for up to 900 people. These rooms are also

available during the day or evening for corporate meetings, seminars and a variety of other functions.

The Knights of Columbus lounge is also open to the public. The group features a nice fireplace and big-screen TV.

"My main goal here is to make the Knights of Columbus facility more community friendly," said Bronnbauer. "In the past, the Knights of Columbus have been very generous, financially, to community needs. I feel we need to be more active in other ways, and we will begin by being more hospitable and accessible to the people of the Tri-Cities area. We have begun by recently lowering our banquet refreshment prices by as much as 65 percent on some items. An example is our half barrel of beer price. It has been decreased from \$130 to \$85."

"I would like to extend an invitation to all of my friends and neighbors. Please come out and enjoy our club as you have in the past and will again in the future," concluded Bronnbauer.

Firm specializes in buying real estate notes

SRK Investments opened Oct. 1 in its new office, located in Granite City.

This office is owned and operated by Shari R. Kindie, who has recently obtained the designation of mortgage investment professional. SRK Investments is a financial investment company specializing in the purchase of seller-financed real estate notes and contracts.

SRK Investments buys real estate notes from private parties. Many people, when they sell property, "take back" a note.

Instead of receiving all cash at the time of the sale, they agree to receive monthly payments for their equity. In effect, the seller of the property takes the role of a banker.

The difference is that when banks need to raise capital, they can sell the mortgage notes they've created to a secondary market for cash. Until very recently the small property owner lacked this option.

The newly emerging secondary market for "seller carried" notes, of which SRK Investments is one of the nation's leading pioneers, is making it easier for people to sell their property in a slow market.

By offering to "take back" a note, sellers increase the num-

ber of potential buyers dramatically. SRK Investments gives these sellers a place to sell these notes to meet their cash needs.

SRK Investments works with both sellers and buyers. SRK Investments is a reliable non-bank source of capital and therefore is not restricted by the current stringent guidelines imposed on conventional lending institutions.

If a buyer is not able to qualify through the bank for a mortgage loan, SRK Investments may be able to help.

SRK Investments will be offering training to real estate brokers and agents on how to use seller financing to market real estate and how to structure these notes so they are easily marketable in the secondary market.

These popular programs will show real estate agents how to close more transactions and will be offered monthly by SRK Investments.

SRK Investments has many innovative and unique acquisition programs, including several new purchase plans designed to provide up to 100 percent pricing on notes meeting specific criteria.

For more information on SRK Investments, please call Kindie at 931-1753.

Realtors' retiring president is named 'Realtor of Year'

Rosalie Stern, retiring president of the Granite City Board of Realtors, was given the additional honor of being chosen 'Realtor of the Year.'

The honor is given annually to the Realtor who reflects the ideas and values of the community, who has been active in the real estate business and who has contributed to the local board of Realtors.

Stern has been active in the Business and Professional and has served as

president of the local organization in 1980 and 1987. She served as president of the Chamber of Commerce Women's Division in 1992-93.

She is involved in many service organizations, having served on the YMCA Board of Directors for five years, and volunteered for many years with the United Way.

Stern is also president of the St. Mary's Church Women's Organization in Madison and is serving on the activities committee and the pastoral council.

She has served as a director and officer of the Granite City Board of Realtors for five years. She is married and the mother of seven children.

told members of the Granite City Council Sanitation Com-

mittee last week. And if Alton still fails to comply, Parente said, the county can pull Laidlaw Waste Systems' permit to haul gar-

bage in the county. Laidlaw is the contractual hauler for the city.

Granite City is considering an agreement with Norton similar to Alton's. Committee members asked Parente for

advice before beginning negotiations with Norton, based in Ohio.

"We're not going to stop you from doing this. We just want assurance that we'll be able to meet the state requirement,"

Parente said.

He said several differences in Illinois and Ohio environmental laws create problems with the Alton contract. He also said the contract leaves the city open to some liability while protecting Norton.

Some provisions of the contract may conflict with state law, Parente said.

In Ohio, for example, mate-

rial sent to incinerators can be counted when determining the percentage of waste recycled. Incinerated material does not count in Illinois.

Similarly, the Norton process includes separation of fine material, such as dirt, coffee grounds, ground glass and cigarette butts, from garbage and using that material as compost.

But, according to Parente, Illinois law is much more stringent about processing of materials that have previously mixed with garbage and utilizing that material as compost will not be cost effective here. Granite City Comptroller K.P. MacTaggart said the city will seek a much more simple contract with Norton.

Grants will finance 2 hospital programs

Two new community programs will be possible due to grants recently awarded to St. Elizabeth Medical Center.

The American Cancer Society awarded SEMC a \$2,500 grant to initiate the Don't Start program, an anti-smoking campaign for fifth-grade students. This

program was introduced into the Granite City, Madison and Venice schools the week of Nov. 13 to compliment the Great American Smoke-Out, Nov. 16. The Don't Start program is directed at advertising and hopes to point out the falsehoods of its glamorization of tobacco use," said Sue Watkins, R.N., of organization training and development.

The one-hour program included pre- and post-tests, and looked at attitudes, the effects of family and peer pressure on beginning smokers.

A follow-up test will be conducted when the fifth graders reach the eighth grade to see if the session changed attitudes and helped to combat peer pressure.

"Active participation was encouraged through role playing, discussions on the cost of tobacco products and a poster contest between all fifth-grade students in the three school districts," said Watkins.

SEMC's APPLES (Access and Prevention Programs for Life, Education and Support) program has received a \$12,000 grant from the Group Health Foundation to initiate additional community education and screening programs in the under-served population of the city. Granite City, Madison, Venice and Pontoon Beach.

The objective of this program is to bring illness-prevention programs into the neighborhoods of the area's under-served population and to motivate individuals and families to take advantage of the programs and screenings."

Mammograms save lives

In the last five years, 228,000 women have died from breast cancer. It strikes one in eight women and is the second leading cause of cancer deaths in women.

Mammograms detect 90 percent of lumps, even those smaller than 1/2 of an inch, which are too small to be felt in breast self examination.

A mammogram screening is an X-ray procedure which creates an image of the breast using low-dosage radiation. Female technologists position the breast so two views can be taken, allowing all areas of the breast tissue to be visible. The breast is compressed so the X-ray is clear and small tumors can be detected.

Radiology services at St. Elizabeth Medical Center has improved the accuracy and reduced variability in reading mammograms, by using a "double reading" program, according to Dr. Albert M. Hammerman and chief of radiology services.

"All mammograms are independently reviewed by two experienced radiologists," Dr. Hammerman said. "Double readings have detected up to 15 percent more cancer cases, thus increasing the effectiveness of mammography in diagnosing early breast cancer."

St. Elizabeth Medical Center's radiology services have been approved by the American College of Radiology's Mammography Accreditation program. The department has met the necessary requirements, which include a stringent review by a panel of breast cancer-detection experts.

Dr. Hammerman recommends an annual clinical examination with screening mammography performed at one to two-year intervals, beginning at age 40; and clinical examination and mammography performed annually, beginning at age 50.

For more information about SEMC's Radiology Services or to make an appointment for a mammogram, call 798-3181.

Kwanzaa to be subject of Dialogue

Kwanzaa, an African Inspired Holiday will be the focus of Dialogue with Senior Citizens, Wednesday, Dec. 6, at Southern Illinois University at Edwardsville.

The presentation will cover the significance of Kwanzaa, a festival holiday that celebrates cultural heritage and human survival, and has roots in Africa that bore fruit in America. Eugene B. Redmond, professor of English language and literature, will recount the history of Kwanzaa. The Dialogue will involve audience participation and will include poetry, bits of sermons, chants and a candle lighting ceremony.

It will take place in the Mississippi-Illinois Room of the University Center, from 1-3 p.m. Sponsored by the Gerontology Program, School of Education, and the Office of Continuing Education, the Dialogue series is an educational and cultural enrichment program open to all older adults.

For more information call Anthony Traxler at the Gerontology Program at 692-3454 or the Office of Continuing Education at 692-3210.

MU student on selection committee

Anne Hewlett of Granite City, a junior at the University of Missouri at Columbia, was recently named to the Student Committee of the Alpha Chi Omega Sorority. This committee decides which members of the chapter will serve in leadership positions for the upcoming school year. For the 1994-95 school year, she served as the public relations chair.

Hewlett also participated in intramural sports for her sorority. She also participated in the Alpha Chi Omega Philanthropy as a football coach for the Sigma Pi Fraternity. Hewlett graduated from Granite City High School in 1993 and is majoring in communications and Spanish at the University of Missouri at Columbia. She is the daughter of Thomas and Patricia Hewlett of Granite City.

Second sport helps Smith broaden game

One of the most pleasing aspects of the University of Illinois football season that had the Illini hoping for a postseason bowl bid in a 1995 finale at Wisconsin was the development of two Southwestern Illinois players: freshmen Antonio "Chico" Brown of Edwardsville and Garrett Johnson of Belleville East. Brown, a 6-8, 285-pound offensive lineman, worked his way through the depth chart despite being in only his third season as a football player. Johnson, a 6-3, 265-pound defensive tackle, was redshirted in '94 and began the season as a reserve after moving from the linebacker position.

I THOUGHT OF THE Illini players recently while watching Josh Smith, a 6-5, 255-pound junior transfer student from North Carolina, play basketball at O'Fallon High.

Mentioned here previously as part of an outstanding offensive line that helped the Panthers to their first unbeaten regular season in school history, Smith is doing the same as Brown and Johnson after their prep grid seasons playing basketball.

While Smith participated in a scrimmage coached by varsity coach Norm Tonjes and assistant coach Steve Oliver, I approached O'THS freshman coach Kevin Kellerman regarding Smith.

"He can only help himself by playing basketball," said Kellerman, a former all-star at Mater Dei and collegiate star at Quincy.

"THERE'S TOO much emphasis on high school athletes concentrating on just one sport," said Kellerman. "Someone like Josh is bound to improve his ability by playing basketball, and he'll also have a chance to lift weights."

Since weight training is incorporated into both the basketball and football programs at O'Fallon, Smith will benefit from that work but his reactions and speed in a basketball uniform will support a theory held by O'Fallon football coach Gary Bridell.

"Most college football recruiters are looking for a body," said Bridell. "They figure once they have a player with size, they can mold him into whatever they want."

For Smith then, the basketball season will be show time since, as a junior, he already is on the list of many recruiters. "Must See" list.

"He's very good for a big man," said Kellerman.

"JOSH HAS THE ability to block low and once he hits someone, he keeps driving," said Bridell. Meanwhile, I await watching Smith in more basketball action and recall seeing Brown and Johnson on the court as well as on the football field. Their versatility was only enhanced by playing a second sport.

OVERTIME: Thanks are owed by this scribe/coach for a recent award related to the '95 prep soccer season. Coach of the Year for Region 12 of the Illinois High School Soccer Coaches Association.

Region 12 includes the Southern portion of the state. The award would never have been achieved without having outstanding athletes who led O'Fallon to a 20-3-1 record, including a 3-1 Granite City tourney victory over Missouri state champion DeSmet, and without having the vote of the coaches in the association.

EXTRA INNINGS: Former O'Fallon pitcher Dave Jörn is home from pro ball and available for instructions. Dave, who is a coach in the New York minor league system, can be reached by phoning 667-8716.

A highlight of Jörn's season came in the final game at Kingsport, Tenn., when he guided that Class A team to a championship after the manager was ejected in the second inning of the final playoff game.

Warriors pin down first win

Grapplers upend O'Fallon

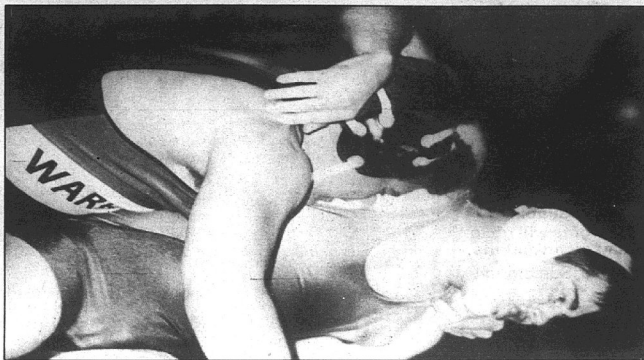

By Rob Raphael
Staff writer

Although the Warriors have had to change their lineup around somewhat, it's still been a good first week for Granite City wrestling.

The Warriors are 3-0 on the early season, after disposing of their first three opponents by a combined score of 198-17. In their season opener at the GCHS annex Tuesday, the Warriors defeated O'Fallon 51-14. On Wednesday, Granite City had an early Thanksgiving feast when it dispatched of Centralia 77-0 and Carbondale 70-3.

BUT ALL IS not well with the Warriors, especially at the 189-pound level. John Selliers has yet to wrestle, and Kelly Huckelberry was injured Tuesday in his first match of the year.

Huckelberry, who normally would wrestle at 160, took on O'Fallon's Alti Taylor in the

Crusaders clip Lady Warriors

By Rob Raphael
Staff writer

Every now and then you just take one on the chin and come back to fight another day.

Such was the case Tuesday, when the Lady Warriors took on the Althoff Crusaders in a nonconference basketball game at Memorial Gymnasium.

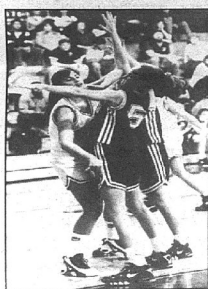

Althoff pressed and shot its way to a 59-28 win. Each team did a good job of stopping the other's big threat. Granite City contained the Crusaders' Jill Gornic (four points), while Althoff stymied Denise McMillan (seven points).

GCHS COACH Chuck Kraus said his team was its own worst enemy.

"We played two teams: ourselves and Althoff," Kraus said. "We beat ourselves, but lost to Althoff. So we actually went 1-1, but that's not a good combination."

"We shot 12 percent from the field, and committed 20 turnovers. We lost our composure and got frustrated, and basically did everything wrong that we could have done wrong. Althoff did a lot of trash-talking out there, and we let it get into our heads. But when your oldest player is a 16-year-old senior (McMillan) that can happen."

BUT KRAUS WANTED to take nothing away from the Crusaders (2-1). Even though Gornic was less than a force, other girls stepped in and took

up the slack. "Their other four girls were able to score, and ours weren't," Kraus said. "Denise just had a terrible night shooting, and that's not going to happen too often. And it was the first time we'd faced a decent press, so we threw the ball around too much."

Kraus certainly saw plenty of positives, however. Tiffany Monroe scored a team-high nine points, while Tonna Druhe, Anna Tapp and Christina Short played their best ball around too much.

Junior forward Demond Simms and the Madison Trojans opened the season Saturday at Collinsville. See Wednesday's Journal for coverage.

JV grapplers win opener

By Rob Raphael
Staff writer

The Granite City junior varsity and freshmen wrestling teams actually outdid their varsity brethren in their home opener Tuesday. Granite City defeated the O'Fallon JV team 60-9, while the freshmen downed the Panthers 63-12.

The JV Warriors registered seven wins by fall in their meet, while the freshmen pinned their opponents nine times out of 13 matches. The only freshmen matches lost by GCHS were forfeits.

ON THE JV side, 103-pounder Jeremy Cox got things started with a win by fall over Kyle Swain in 56 seconds. Curtis Strain (112) pinned Derek Reeves at 2:33, and Matt Werner (119) blew past Aaron Erskat 21-2 for a major decision.

Justin Hale (125) took care of Jeff Swain 8-2 in one of the closer matches, while Dane Bauer (130) dropped Willie Goodman in 1:15 for a win by fall.

Brooks Narvaez pinned Jim McKenzie at 2:36 in (See JV, Page 3B)

Shootout tickets available

Tickets for the 15th annual Coca-Cola/KMOX Shootout are now on sale and available at various St. Louis-area locations.

The Shootout will be held Dec. 7 at the Kiel Center. Tickets, priced at \$16 and \$13, cover the day's activities. Tickets are on sale at the competing schools and all Tickets Now locations, the Kiel Center Box Office and Curt Smith Sporting Goods in Belleville. For group sales, call (314) 622-5454.

The 15th Shootout will feature seven games, with hoops running from noon until just short of midnight.

"We really have some intriguing matchups this year," Shootout director Keith Pickett said. "And we'll likely showcase nine of the top 50 players in the country."

Even though no immediate-area Southwestern Illinois schools are competing in this year's event, five Illinois teams and five Missouri teams will participate. The Shootout has long been considered the premier event of its kind.

The pairings include: Carlyle vs. Cor Jesu Academy (girls), noon. Webster Groves vs. Houston Strake Jesuit, 1:30 p.m. Shelbyville vs. Tulsa Booker T. Washington, 3 p.m. Springfield vs. Phoenix Shadow Mountain, 4:30 p.m. Springfield Lanphier vs. St. Louis Vashon, 6 p.m. Cardinal Ritter vs. Baton Rouge Glen Oaks, 7:30 p.m. Chicago Farragut vs. DeSmet, 9 p.m.

York, Wildcats end year 4th in national tourney

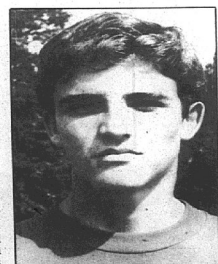

By Rob Raphael
Staff writer

Jayson York returned to Granite City last week for Thanksgiving with much to be thankful for.

York just completed his freshman season at Indiana Wesleyan University, where he saw plenty of time in goal for the Wildcats — who finished 13-12.

IWU, AN NAIA Christian college located in Marion, Ind., had a tough first half of the season but turned it on at the right time. The Wildcats, with York in goal, finished the season with an 8-3 run and placed fourth in the National Christian College Athletic Association's national tournament in Cleveland, Tenn.

York, 18, was named to the NCCAA All-American team, as well as the all-conference team during the regular season. York, the son of Jake and

in goal this year, and finished with a goals-against average of 1.8.

"We started off slowly, but we had a good second half of the season," York said. "I think we did a lot of growing up. We were a young team, and we graduated four seniors. We had five sophomores starting for us, and I was the only freshman."

"It was a case of everyone getting used to each other."

The Wildcats played a tough early-season schedule, with games against NAIA top-20 teams like Judson and Illinois-Springfield. They were 1-4 at one point, and 5-9 halfway through the season.

"That was a big part of our poor record," York said. "But I forced us to learn very quickly, and that showed toward the end of the year."

York is studying pre-med at IWU, and he hopes to go to a chiropractic school either in Iowa or St. Louis after graduation. He said he is very happy with his choice to attend IWU.

"Marion is about the same size as Granite City, and it's very similar," he said. "I really like it there. It's a nice Christian school, and it's small but not too small. There's about 2,000 students."

games of the young season. Druhe and Tapp each got on the scoreboard for the first time this season.

"Anna continues to progress by leaps and bounds," said Kraus. "She's coming along like gangbusters. Monroe definitely made a big improvement, and Short played better, too. Geeta (Kumar) was doing a good job, but I had to take her out, because her knees were hurting her so much."

"And we'll make a slight adjustment, with (Carrie) Simpson's jumper, and I think that'll make a big difference for her. We made a lot of mistakes, but we saw a lot of good things, too."

York started playing soccer at age 4, but he said he never took the game seriously until he switched to goalkeeper for freshman year at GCIS.

"As it turned out, that's what helped me get to college," he said. "I thank Coach (Gene) Baker for that."

York said he was happy with the way he played during his freshman year, but he knows he can get better.

"Hopefully, I can build on what I accomplished this year," he said. "I need to get stronger, so I'm planning on hitting the weights in the off-season. With the guys we've got coming back, I think we can be a better team. It's a whole new atmosphere up here."

He said coming into this year, his goal was to be one of the best goalies in the conference, and he accomplished that. With his NCCAA honor, he's confident he can be even more next year.

"I played a ton, and started every game, but one," York said. "My coach, Dan Wood, showed confidence in me. He expects me to be a leader in the conference and to be one of the best goalies in the state."

"That was my goal this year, and it worked out. Next year I think we can return to the nationals, and hopefully we can win it all."

Kraus said he is preparing his team for a visit to Madison on Monday night. He said the team is actually ahead of where he thought it would be at this stage.

"We'll have to work on breaking the press, and we'll do a lot of shooting," Kraus said. "We're still limited with injuries. We can't do much running, so we have to take them from drill to drill as quickly as possible."

"I'm still proud of these girls because of how much character they've shown in the first two games. There's a lot of things to be happy about, and with a few more games I think some things will come together for us."

the 135-pound match. The Warriors' streak was stopped momentarily when Gotschall of O'Fallon got by Granite City's Brent Boyer 12-4.

Matt Levart (145) won by forfeit, and Kevin Venne (152) outlasted Nathan Speer 12-4. Granite City took three of the final four matches by fall. Dwight Newman won by fall at 160 pounds against Nick Deery in just 26 seconds. Justin Gardner (171) had to work a little harder, but he still pinned Jeff Stacy at the 5:46 mark.

Shaun Tombs was the only other Panther to win a match, as he stopped Mark Derossett of Granite City by technical fall at the 2:59 mark.

Nick Campbell then finished off the Panthers in style when he dropped Eric Bell at 1:05 of the first period.

JV coach Tom Blaha said he was pleased with the results.

"Considering it was the first match of the season, I'm very pleased with the results," Blaha said.

In the freshman meet, Paul Johnson of Granite City won by fall over Derek Reeves at 103 pounds in 52 seconds. Ben Lofink (110) then dispatched O'Fallon's Evan Clark in 51 seconds.

Ryan Worthen (119) pinned Josh Conary at the 1:50 mark, and Sean Courtney outpointed Travis Hackney 10-8 in a competitive match at 125 pounds.

Hale (130) put Bobby Mehan's shoulders on the mat at 1:09, and Narvaez won his second match of the night when he pinned Tony Hyatt in 1:46. Kenny Cuvar (140) had to go three periods, but he pinned Todd Vitek at the 4:57 mark. Levart (145) took care of James Kadel, winning by fall in 1:30.

Venne needed only 46 seconds to drop Chris Oliver at 152; before O'Fallon's Brent Bettis and Josh Venable each won by forfeit.

Derossett pinned Jeff Puck at 1:52 in the 169-pound match, and Temple pinned his second opponent of the day when he stuck Jay Johnson at the :48 mark.

ments for the Centralia-Carbondale meet.

After the O'Fallon meet, Garland said he was less than thrilled with the Warriors' performance.

"I'm happy with the result, but as far as pleased — no," he said. "It would be silly to say we weren't happy with the score, but we didn't look good in some areas."

"We had hand control problems underneath. We looked like Edward Scissorhands out there. But you still have to be happy."

There were plenty of highlights in the O'Fallon match. Adam Dunavat got things started on a positive note when he scored a 25-5 major decision over Aaron Grant.

After Bob Chausett defeated Nick Burrows 10-3 at 119 pounds, Mike Glover (125) and Kevin Feigenbutz (130) each scored decisive pins. Glover pinned Chuck Burrows at the 3:00 mark, and Feigenbutz dropped Tatum Hackney at 1:51.

Jonas Janek had a tough first match of the year, as he had to go up against returning state qualifier Scott Vitek at 135.

"Jonas got beat by a pretty good kid," Garland said. "He did some pretty good things though, and the effort was still there."

We had a lot of the younger kids that looked good. Glover and Feigenbutz were sharp, and David Thompson (140) and Jason Wilson (160) did well. It's good to have these kinds of kids coming in, and hopefully if we maintain their enthusiasm we'll be in good shape."

After Thompson's win over Todd Keibach, Jeff Estrada (145) looked good in pinning Eric Woods in 1:59. Jo Scott (152) blew by Glenn Reigelman 13-2, and Wilson and John Venne each scored pins.

default, Chris Janek topped off the dual meet with a 23-second win by fall over Paul Garrett in the heavyweight division.

"We still have a lot of untested guys down the line, but there's a lot of enthusiasm

out there, and that's something you can't coach," Garland said. "I'm proud of them."

Garland had to switch wrestlers around for the triangular meet in Centralia, but GCHS was still not tested.

The Newman made his first varsity match a successful one, as he won by fall in 3:15. Kevin Venne filled the 160 spot against Carbondale and won by forfeit.

Chris Janek pinned both of his opponents Wednesday, and has won all three of his early-season matches by fall in a total of 1:36.

GCHS wrestled at Edwardsville in a dual meet Friday.

HOW TO...

PLACE AN AD

There are four easy ways to place your ad. **BRING IT:** 1815 Delmar Ave., Granite City, IL 62040. **PHONE IT:** Call 877-7700 or dial 876-2000. Phone lines are open from 8 a.m. to 5:00 p.m. Monday through Friday. **FAX IT:** Send your ads directly to our Classified Fax Center at (618) 876-4240. We'll call you back for confirmation. **MAIL IT:** Send your ads to: Classified, Granite City Press-Record Journal, 1815 Delmar, Granite City, IL 62040.

PAY FOR AN AD

You will be billed immediately following last run day. You may pay in person, through the mail, or over the phone or fax. We accept cash, checks and credit cards (MC/Visa). When paying over the phone, please have your credit card ready. When faxing your ad, just include your card number. We'll call you back for confirmation. Please do not send cash through the mail. Some ads require prepayment.

WRITE AN AD

Capture the reader's attention with larger headlines, bold type, and icons. Tell them up front what you're selling or seeking. Describe what is unique about your item, adding details such as color and condition. Avoid abbreviations; they make your ad harder to read and therefore less effective. Include your phone number and the hours you are available. Always include the price; it will increase your response.

CANCEL AN AD

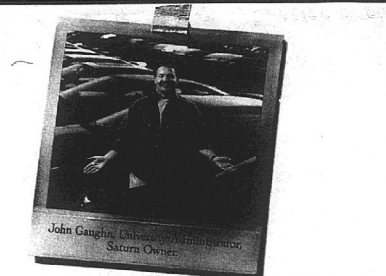

Deadlines for ad cancellation are identical to deadlines for ad placement. You may cancel an ad in person or over the phone. To cancel an ad, phone 877-7700 or 876-2000.

PUBLICATION POLICY
To ensure the best response to your ad, please take time to be sure your ad is correct the first time it appears. If you see an error, please call us immediately to have it changed. However, the publishers are responsible for one incorrect day only, and liability shall not exceed the portion of the space occupied by the error and is limited to the actual cost of the first insertion. Cancellations: To cancel an ad call 877-7700. This number will serve as your record of cancellation. You must call before deadline to cancel an ad. The publisher reserves the right to reject or reject any advertising based on the policies of these newspapers. The publishers shall not be liable for any advertisement omitted for any reason other than that the classified sections are not guaranteed. All ads are subject to editorial approval. **NOTICE TO READERS:** Before responding to any advertisement requesting that money be sent or invested, you may wish to investigate the company and offering. The publishers cannot assume any responsibility for the validity of the offerings advertised within the Classified pages.

"They leave you alone to wander the lot."
Breathing room, unfortunately, is one thing you can't always count on when shopping for a used car. Unless, of course, you pay a visit to a Saturn store. We sell used cars — Saturns and other makes — in the same relaxed, pressure-free way we sell our new ones. We call it the Saturn Certified Used Car process. We think you'll like the change. Hope to see you soon.

SATURN

Certified Used Cars

Every used car we sell is backed by a limited warranty, not to mention the fact that it undergoes a thorough 130-point inspection and reconditioning process. Each one is also cleaned and given an oil and filter change. To top it off, a 3-day, no-haggle guarantee and a 30-day, 1,500-mile trade-in policy are included, as well. Only at participating Saturn facilities. ©1995 Saturn Corporation.
